Learning objectives

To gain a better understanding of the following:

- the ethos of the CYCT system
- the key principles that underpin the Children Law in Guernsey
- the legal framework and decision making
- the role of the Convenor and CYCT
- when to make a referral and the process of referral

To understand where the Convenor and CYCT sit within the wider system for the protection of children

An additional half day session is under development at the moment for practitioners who will be routinely providing reports and information to hearings of the CYCT or attending hearings.
